

# ACE Replacement Switch for Mahlkönig EK43 Grinders

## Installation Instructions

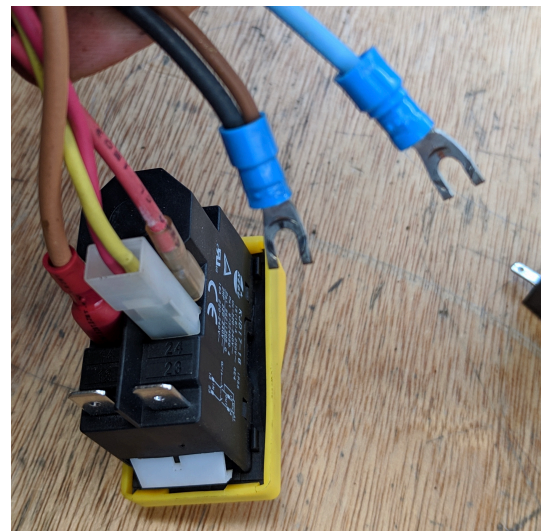

**Step1:** Compare the new ACE switch with the original E•T•A unit. Note that the original switch has 2 x 0.25" (6.35mm) Spade Terminals and two screw terminals, whilst the ACE unit has 4 x 0.25" (6.35mm) Spade Terminals.

**Step 2:** Remove the Yellow/Red wires from Terminal (12) of the original switch and place it firmly on terminal (24) of the new switch.

**Step 3:** Remove the Brown wire from Terminal (22) and place it firmly on Terminal (14) of the new switch.

**Step 4:** Remove the pinkish red wire from the smaller terminal (XX) and place firmly on Terminal A1 of the new switch.

**Step 5:** Remove the Black /Brown wire from Terminal (11), replace fork terminal with Blue Spade Terminal and place firmly onto Terminal (23) of the new switch.

**Step 6:** Remove the Blue wire from Terminal (21), replace fork terminal with Red Spade Terminal and place firmly onto Terminal (13) of the new switch.
